Help us to have a Smart Class Room.....

A **smart classroom** is a technology-enhanced learning **classroom** that enhances the way of teaching and learning digitally. The **classroom** is integrated with the digital displays, tabs, whiteboards, assistive listening devices, and other audio/visual components that make lectures easier, engaging, and more interactive.

MnSLFF owe a debt of gratitude to Mr. Kevin Hollahan from Minnesota, for his generous gift of \$2500. towards our charitable work in Sri Lanka.

The request from the School Principal

"Although we are an underprivileged rural school we maintain a high standard in teaching our students. We believe the education is the asset that we can provide them to build a brighter and successful future. We realize the value of new technology and its necessity in the modern teaching practices and delivery. We do not have a Smart Board or we do not have the financial ability to obtain a Smart Board. We observed your organizations great work in Sri Lanka. We humbly request you to help us to get a Smart Board and install it in a class room with an air condition facility." - Principal R.M.N.S Ratnayake.

Your donation for this project is greatly appreciated.— [MnSLFF](#)

Pokunagala Primary School is located in Polonnaruwa District in the North Central Province of Sri Lanka. School has approximately 125 Students. Parents are farmers and Laborers' with less than \$ 100 monthly average income. School provide students with a uniform, school text books, and a meal for the day. This is an underprivileged schools with smart students. MnSLFF needs your support for this noble project.

Donations: Please send Checks payable to: MnSLFF, 8235 Marsh Creek Road Woodbury MN 55125 USA
